The above prices embrace a steerage passage from Liverpool to Boston, by any of the splendid Line of Packets; provisions at sea according to the above mentioned dietary scale; doctor's attendance and medicine on board when required; port charges at Boston, and all expenses of transportation from Boston to destination agreed upon.

We will not issue a pre paid certificate for children under 12 years of age, unless accompanied by a passenger over 12 years, who must be paid for at the same time and on the same certificate.

Bedding, and utensils for eating and drinking, must be furnished by the passengers; as those going to the Canadas or Western States, must furnish their own provisions from Boston.

In calling public attention to the subjoined list of the Ships which compose the Boston Line of Packets, we believe that its general reputation *as the first of American Liners* is sufficiently well known and established. The Thousands of Letters which have been sent by American Immigrants to their friends in every part of Europe, have borne ample testimony to the rapid and successful passages made by those Ships, and to the superior Health, Comfort and Safety which their Passengers have hitherto enjoyed. Many of them will be recognized as vessels which have gained the very highest character, by a succession of unusual rapid passages.

JOB PRINTING.

Now that the Spring business has commenced, and merchants are preparing for their customers fresh stocks of goods, it may not be out of place to remind them that the SENTINEL JOB OFFICE is now *three steam and two hand presses*, and employing 14 or 15 hands, is better prepared than any other in the State to do work HANDSOMELY, CHEAPLY and AT THE SHORTEST NOTICE. Our stock of Papers and Inks, common and fancy, and of card board, plain, colored, and with handsome colored and gilt borders, is large and varied.

Merchants who desire, by issuing POSTERS—large or small—Handbills, Circulars, Show cards, &c., to invite attention to their stocks, cannot do better than to call and make their arrangements with us. Those who wish posters "illustrated with cuts" can be accommodated at this office.

The News.

Under our telegraph head and elsewhere will be found numerous interesting items of news. It will be seen that, in all probability, Santa Anna's days of Dictatorship are over.

The mails bring various items for which we have no room. Col. CHAMBERS, the able editor of the St. Louis *Republican*, died on Sunday last, leaving a wide circle of friends to regret his loss.

The Railroad Convention at Baltimore has resolved not to accept the terms offered by Government for carrying the mails.

On Friday last 35 emigrant ships arrived at New York, bringing 12,471 passengers. Many of the ships had over 700 on board.

An Envoy from Honduras has reached this country, bringing an offer of annexation. The country has a population of 350,000 people.

Government has ordered the detention of all vessels of war under sailing orders.

The Celebration at Madison.

The large party of our citizens who went to Madison on Tuesday morning returned mostly by trains during the night, and yesterday morning, though many remained over and returned last evening. The crowd at Madison was immense, and the good people there were quite taken by surprise. The train out took full 2000 people into the capital. We are obliged to postpone a more full account of the proceedings till to-morrow.

Riding Two Horses.

With all of the various equestrian performances announced for the edification of the public this season by the travelling circuses, we do not expect to see, or to hear of any one's witnessing feats which equal those of the friends of the Nebraska Bill, North and South. Their policy and their language are not based upon the same principle, or lack of principle, by which the Democratic demagogues cheated their followers once upon the Tariff question, when they repudiated that measure at the South, and advocated it at the North. This time, both sections of the Democracy are on the same side, but for precisely opposite reasons.

"Doughface" says he favors the bill because it gives the "people" of the Territories the right to choose their institutions. "Southron" says outright that he wants the region for Slavery, and must mean to have any people there but such as suit his purpose. "Doughface" insists upon it that there is not the slightest probability that the people will exercise their power in favor of Slavery. "Southron"—*vide* the Natchez *Free Trader*—says that "the passage of the bill will be one of the greatest blows against free soil ever struck," and that the Territories "shall be honeycombed free to slaveholders to emigrate thither *with their property*."

"Doughface" urges that the Nebraska Bill is the greatest advance movement in the direction of human freedom since the adoption of the Constitution"—and we find one of our northern exchanges arguing, "Southron," on the contrary, chuckles with huge delight, and cracks his whip lustily, that the progress and permanency of Slavery is to be secured by the bill.

Democratic institution, is this Doughfaceism. Is it not? Of all the isms of this *ismatic* age and country, nothing can equal it. Will it ever die out? Or are we to be forever cursed with a set of misrepresentatives in Congress, who control caucuses to get nominations, who buy up delegates to conventions, who lie and wheedle and bribe men into voting them into place and power, and when elected, turn around and laugh at their fool-ish supporters; who go to Congress to make money—who take money (or office, its equivalent) for their votes—and who are the mere slaves of whatever clique of slave-owners choose to lay on the whip and drive them? Are we always to endure these things, or shall we have a North? Is it not time for Northern voters to throw other issues aside, and to determine solemnly that no man hereafter gets a vote from them for a National office, unless he is openly and boldly pledged to a restriction of Slavery within its proper limits?—What say our brethren of the press of Wisconsin? And if they respond, as we believe they *will* respond, with a hearty AYE, ringing over the broad prairies of the West—far from the West must come the vindication, as from the West came the insult, by Douglas—we say, if the people of Wisconsin are ready to come up to this stand *for* FREEDOM, then let them speak out, and we may find a way to bring about a good result.

AN ANSWER.—The answer to Mr. Walley to a question by Mr. Stephens of Georgia, while the former was speaking, on Wednesday, was a "clincher." Mr. W. had affirmed that at the time of the adoption of the Missouri Compromise, it was agreed to by members enough from the North united with those from the South, to carry. "It was adopted," said Mr. Walley, "and became substantially a binding agreement." Mr. *Stephens*—"Binding agreement?" *Mr. Walley*.—"Yes! sir, binding." *Mr. S.*—"Binding upon *whom?*" *Mr. W.*—"Binding upon *all honorable men*." Mr. Stephens made no reply.

A PIONEER HORSE AND CART.—The first horse and cart started for La Crosse yesterday morning. The owner had just purchased the equipage and was started when we met him. He enquired of us the way, stating that he had tried to get a load at the piers for Portage City, but the forwarders refused to give him one without an order. He is a native of Stroudwater, Gloucestershire, England, and will be the first carman in La Crosse. His name is WILLIAM THOMPSON. He had one box—a load in law—and which, if we are not mistaken, will be thorough-fal cabinet-ware load has been drawn in this State. Success to the pioneer cart. The man who has travelled 400 miles to set up carting deserves encouragement.

The Cleveland papers of Monday contained obituary notices of Richard G. Winslow, of that city, who died at his residence on Saturday last. He had been for many years actively engaged in lake commerce, and his numerous friends are apprised of his sudden death with deep regret. The flags of the shipping at Buffalo were displayed at half mast on Sunday, as a token of respect to his memory.

HEAVY CONTRACT.—The Appleton *Crescent* informs us that the Fox River Improvement Company have let the mason work of the 4 Locks at the Grand Chute to Mr. GILL of that place, to be completed this season. A large portion of the materials are already on hand. The locks are to be 160 feet in length by 40 in width, and will require 4000 cords of stone.

"Barstow and the Balance" at Washington.

The Madison *Journal* draws, on its own account and through a correspondent, two pictures representing the departure of the pilgrims to Washington, and their exodus from that city of corruption. The first picture looks like this:

Since the expeditions of the doughty Stuyvesant, as recorded by the veritable Knickerbocker, nothing has been seen to equal the pomp and ceremony attendant upon their departure. At Milwaukee the military were called out, whether in honor of their transit through that city, or to express joy that they had at last decamped from their winter quarters by the State Treasury, deponent sayeth not. Whilome Major McManman—but now no longer a mere Major, for the Governor had just promoted him—in the first flush and consciousness of his newly acquired laurels, and by his sudden elevation feeling like a figurative rocket sealing the heavens of military fame, in shape and gesture proudly eminent, was the master spirit of the august and imposing ceremonies. Grateful incense to the manes of the Governor and his compatriots was the ostentatious reception. Gladness filled their hearts, lager beer their stomachs, and joy brightened their crests. The *Banner* spoke admiringly of the hearty swigs which they took of the fluid referred to, and of the apparent gusto with which they drank it. Their spirits elevated in this manner, the objects of their pilgrimage seemed already half completed. It has been hinted that one of their agents at Milwaukee, who was quite intimate with a well known clairvoyant (or *auteuse* we should say,) then in the city, consulted the oracle for them, and the discomfiture of the Milwaukee Postmaster, and the passage of the Land Grab bill were seen through the mists of the future as readily as her piercing vision could penetrate the multiple bandages of cotton with which suspicious committees were wont to envelope it.

This then was their happy situation. Part of their schemes were already accomplished. They had triumphed! Had full and grand possession of all the important offices of the State. And above this success, already realized—grounded on the inspiration of the juice of the Brewery, of the vaticinations of the clairvoyant, or some equally substantial basis—was the hope of still further successes, like

"The budding rose above the rose full blown."

So much for *that* picture. Now look on this one, drawn by a correspondent at Washington, who, the *Journal* says, "has no particular prejudices against the persons alluded to, other than their own conduct would create in any disinterested observer." We are quite ready to believe that, so far as Messrs. Dewey and Robinson are concerned, the writer errs in identifying them so closely with the operators in the great attempt at Land Grabbing:

WASHINGTON, (D. C.,) May 14, 1854.

* * * * "Barstow, Dewey, Gray, Beriah Brown, Sanders, Woodle, Coon, James, E. G. Ryan, Charley Robinson, Tallman, and two or three others from Janesville have been here, endeavoring first to procure the removal of Noonan —I came near forgetting to mention Fred. Horn among the rest. They waited on the President for that purpose, but at the outset, before their story was half told, he very politely told them what they desired was entirely out of the question, and I understand that he expressed a desire to hear no more on the subject. They therefore took their hats and left with a flea in their ear.

"They next tried the members on the other great object of their mission, the revival of the land grant bill, but dreadful to relate, as totally failed as in the attempt at removing Noonan.—They were told by many who voted for their bill last winter, that, of all others, it was the last bill they would ever vote for again. In short, they are down flat. Ryan has gone off home *cursing everything in inch high!* Robinson has gone cold mad. Dewey has gone; Brown has gone; Barstow starts to-night; Sanders has gone; the Janesville men have gone; Gray goes Tuesday; and Coon goes then also. So that after Tuesday next the quadrille will be entirely broken up, leaving only A. Eyatt, like Woodle, and old Macy to look after the wreck of matters.—

Speaker Horn, it will be noticed, pays up promptly for his appointment as Emigrant Commissioner. If he had managed to induce a portion of the above Emigrants from Wisconsin to *stay away*, he would have earned his money.

"Death to Doughfaces!"

The following paragraph from the Springfield *Republican*, with the accompanying comment by the Albany (N. Y.) *Evening Journal*, will meet with a ready response in the hearts of thousands in the free West, in case of the Nebraska Bill, concerning which they are written, shall have passed Congress.

In anticipation of the passage of the swindle the Republican asks:

"What then? First and foremost, an unrelenting war in the free states upon all northern men who have participated in the deed, or who have apologized for or defended it. Death to Doughfaces! This shall be our rallying cry. Let all true northern men unite to wage the worst extermination against the so-called Democracy, who, violated the plighted faith of the nation, outraged the convictions of the people, to purchase a mess of pottage! Let us see if there is not a North at last. When that is secured, wrested from political corruption, and planted upon the honest popular will, then can we study our duty to the Union and to slavery. But let the North be freed first."

The *Journal* says;

The sectional storms of the past will be remembered but as "the gentle play of summer zephyrs," in contrast with the tempest which the Repeal of the Missouri Compromise will excite. It will open, to their utmost widths, the flood gates of "agitation," and awaken a spirit which will be allayed, not by the annihilation of the cowardly traitors from the North who will have aided in the consummation of the infamy—although that will be done;—it will demand the demolition of every barrier which reputable statutes have thrown around the institution of Slavery.

No evidence has ever yet been furnished in Congress that "there is a North." The mass of Northern Representatives have seemed content to be "hewers of wood and drawers of water" for Slavery. But this last aggression—involving more of Punic faith and infamy than any of its predecessors—has warmed the cold blood of our People; and, hereafter, Massachusetts will find plenty of backers in her war-cry of "Death to Dough-Faces." If this bill shall pass, THERE WILL BE A NORTH; and that North will be as relentless in its war upon Slavery as Slavery is relentless in its war upon Justice, Liberty and Human Rights. The South has thrown down the gage of Battle, and the North has taken it up.

NEW STYLE.—The Kenosha Telegraph contains the following odd notice of a death and burial—evidence sufficient of the progress of the great delusion;

Born into the Spirit World, on the morning of the 4th inst., Almira Remington, at Genesee Wakesha Co., aged about 20 years. The funeral was attended by a large concourse of sympathising friends.

Miss Julia Hulburt, who is now traveling in Wisconsin, for the purpose of promoting Spiritual truth, addressed the congregation on the solemn occasion, while in a clairvoyant state. She was made to speak with great beauty and power; her address to the mourners was well adapted to the occasion, and well calculated to lift their minds above the grossness of earth.

ONE HUNDRED THOUSAND DOLLARS REWARD.—*To cure Cholera*—J. Y. Mason has transmitted to Mr. Marcy, Secretary of State, a letter from Alexander Vattemare, the great Frenchman who has done so much for the diffusion of knowledge by international exchanges, stating that by his will he leaves $100,000 to any persons who discovers the *"means of curing Asiatic Cholera, or the cause of the pestilence."* To give publicity to the fact, this publication has been made. The power of awarding the prize has been conferred on the Institute of France, and the interest of it, until it has been awarded, is to constitute an annual prize, to be given to those who advance the knowledge of the cause of Cholera and its remedy.

THE FIRST LAKE STEAMER. A number of the old Detroit *Gazette*, dated May 14th, 1819, copies the following notice from a New York paper concerning the first trip of the first steamboat to the upper lakes;

"The swift steamboat," "Walk-in-the-water, is intended to make a voyage early in the summer, from Buffalo, on Lake Erie, to Michilimackinack, on Lake Huron, for the conveyance of company. The trip has no near a resemblance to the famous Argonautic expedition in the heroic ages of Greece, that expectation is quite alive on the subject. Many of our most distinguished citizens are said to have already engaged their passage for this splendid adventure."

INFORMATION WANTED.—Written D. Gates of Lafayette, is anxious to know the whereabouts of his brother, Alfred F. Gates. When last heard from—several years ago—he was in Marquette county, Wis. Wisconsin papers please notice.

DROWNED.—We are informed that Mr. Phelps, long known as the Pilot at Little Bull Falls, attempting to run a crib of oak lumber, was drowned on the Falls, on the 14th inst.—*Stevens Pt. Pinery.*

HOW "PORTE CRAYON" IS REGARDED.—The Madison *Argus* has the following in reference to our correspondent "Porte Crayon." If the *Argus* knew as well as we do how appropriate the signature is, it would find no lack of euphony in the words:

"PORTE CRAYON."—Some one who writes under the above detestable signature, has occasionally a poem of exquisite sweetness and beauty in the *Sentinel*. He, she, or it, is the poet of the State—indeed we have seen little in our best writers superior to a gem, the subject of which, "May"—we think had been exhausted. Can we, and other admirers, be accommodated with the name of the poet, or at least a more euphonious title than Porte Crayon?

Concerning the same writer, the editor of the Madison *Journal*, himself a poetical contributor to the *Knickerbocker*, has the following:

"PORTE CRAYON."—The *Argus* speaks highly of a poetical correspondent of the *Sentinel* who writes under this pseudonym. We have often thought of referring to the subject, but have neglected to do so. The writer has certainly a very rare felicity of expression, an exquisite delicacy of thought at times. Sometimes obscure, and often negligent and harsh, there is a vein of true poetry in him which he should diligently work, for though the "world is full of poetry," a great deal of it is detestable stuff, and good poetry is still in demand.

The following from a recent poem entitled "May," shows how fresh and charming he can render an old, and seemingly worn out subject:

And in her hand she bears,
Half filled with rain, a gi-ant-ine tulip-cup;
Which if one look in ere the sun be up,
He loves half his cares
For, Hebe-like, she brings
Wine of the morning from the springs of peace!
Whose calm shall rule the day, and will not cease
When night hath closed her wings.

There is a Tennysonian delicacy and finish about this. Who ever heard the benefit of early rising set forth in such dainty terms as these before!

BELOIT AND MADISON R. R.—The Madison *Journal* says that the Directors of the Beloit and Madison R. R. Co, residing in that place, have gone on to Chicago to meet their associates, when it was supposed that arrangements would be made for the early completion of the road to Madison.

HOAX VS. HUMBUG.—The hoax perpetrated in N. Y. about the visit of the Fairy Guard it is said was gotten up in Harrisburg, Pa., and was the result of a wager made at a convival meeting that one of the party would "humbug" the Prince of the order, viz—Barnum.

☞During Thursday last, 12,471 emigrants from foreign countries arrived at the port of New York. The vessels in which they came numbered 35.—The total arrivals from sea on that were 73.

STOCK FOR WINNEBAGO CO.—Capt. MCKINNON, who is now in England, writes as follows to the Menasha *Advocate*:

After consulting the best authorities in England, I find that the pure Durham breed combine all advantages once deemed incompatible. Early maturity, quick feeding, and that to great weight; abundance of inside fat, fine grain meat, plentiful and steady milkers. To the dairy farmer, therefore, the Durham stock are as valuable as to the grazier. It is a remarkable fact, that this breed improves in both the quantity and quality of milk as they grow older. The milk of a single cow—an immediate ancestor of "Menasha Mac"—returned 373 lbs. of butter in the space of 32 weeks; the lowest weekly amount being 7 lbs., the highest 10 pounds. The weight to which some of this breed have been fed is astonishing.—The "Durham Ox" when slaughtered, was 165 imperial stone, of 12 lbs each, the four quarters, besides yielding 11 stone 2 lbs. of tallow; the hide weighed 10 stone, 2 lbs. His age was 11 years. Many high fed oxen at three or four years weigh from 100 to 120 stone, and even more. It is the deliberate opinion of the best judges in the Durham stock is universally superseding all other breeds in England. I have taken great pains to procure a Bull of this breed, and think I have succeeded. If he arrives safe at Menasha, I feel convinced that in a very few years, the "Infant Hercules" will be able to challenge any town in the far-west for Progress in her population and wealth, Pride in her Agricultural and Manufacturing excellence, and satisfaction in having the best *cattle*, and *horses*, in the vast and comprehensive circumference of the Great Republic of the United States.

Outagamie Circuit Court.

THE MURDER TRIAL.

On Monday evening, the Judge delivered his charge to the Jury in the case of the State *vs.* Frederick Sheffler and Christina Sheffler, indicted for the murder of FREDERIKA, wife of Fred. Sheffler. In his anxiety to be impartial it was evident that His Honor leaned toward the prisoners. Indeed, he charged the Jury (in substance) to acquit Mrs. Christina Sheffler; and that there was serious doubts as to the sufficiency of the proof against Fred.

The Jury returned into Court at 10 P. M., with a verdict of *Guilty of murder in the first degree* against both of the Defendants!

On Tuesday, a motion for a new trial was argued and *granted* to Mrs. Sheffler, on the ground that the verdict was not warranted by the evidence. The Judge took occasion to advise the District Attorney not to bring her case before another Jury. The motion for a new trial in Fred.'s case was denied; but, as his counsel chose to take it to the Supreme Court on a bill of exceptions, he was remanded without sentence.—The old lady was admitted to bail in the sum of $500 for her appearance at the Fall Term; two of her counsel—Messrs SMITH & HAYNES—tendering themselves as security.

As there is already much dissatisfaction expressed as to the result, we will refrain from comments calculated to inflame the minds of a law abiding people.—*Appleton Crescent.*

THE "KNOW NOTHINGS."—The following items from two of the New York papers relate to matters which have excited a good deal of attention in that excitable city lately:

A CURIOUS MATTER.—A curious affair is now under investigation before Police Justice Osborn, respecting a contemplated *expose* of the secret order of "Know-Nothings," or in other words the "Guard of Liberty." One of its members, named John E. Elliott, has charged three other members with breaking into his office and taking therefrom the charter, books, money, &c. Some very remarkable developements are anticipated during the hearing, which is set down for this day. An account of the proceedings already taken will be found under the Police intelligence.—*N. Y. Herald.*

There was quite a flare-up among the "Know-Nothings" of our city yesterday, growing out of an alleged attempt of a leading dignitary of the Order to betray their secrets to a Catholic Priest for $10 000. No blood has yet been shed, and probably none will be, but it is quite probable that the discipline and power of the Order will be shaken by the expose.—*N. Y. Tribune.*

MILWAUKEE AND WATERTOWN R. R. EXTENSION.—The Columbus *Reporter* has the following relative to the extension of the Milwaukee and Watertown Railroad westward from Watertown:

The President of the company has been authorized to have finished immediately the surveying and locating on the Division between Watertown and Columbus, and put under contract forthwith. This is a "fixed fact," and no further delays will be experienced until a rail communication is open from this point to the commercial capitol of the State. It is to be hoped that our citizens will come forward and discharge any former obligations the company has upon them with alacrity and zeal. A communication with the lakes and the east will render this section of the country prosperous beyond the expectations of the most sanguine.

RAILROAD INCIDENT.—A few days since—says the Worcester (Mass) *Transcript*, we were riding in the cars on the Cheshire Railroad, and as the train approached the North Ashburnham (flag) station the flag was seen to be flying; the whistle was sounded, and the brakes were put down, the train stopped, a man was seen to jump on to the car, he was met by a pretty woman at the car, apparently in waiting; they immediately imprinted a kiss on each other's lips with a smack which reverberated through the car, the man jumped off, and away went the train, and that was all the business transacted at the station. Now who says that conductor ain't accommodating? We bespeak for him a service of plate from the ladies upon that road, and that without delay.

DECIDED.—The Jury in the case of the *Illinois Central Railroad Company vs. Charles Welker*, rendered a verdict on Saturday afternoon of $20,712 for the defendant for damages sustained by him in the loss of land taken by the Company for railroad track. The Jury considered the property benefitted quite as much as damaged by the nearness of the depot buildings. The award of the Commissioners to Mr. Walker, from which both parties appealed was $47,800. We presume the case will be taken to the Supreme Court.—*Chicago Dem Press.*

☞ Capt. AUDE's fine military company were out on Monday, in their new dress, which looks exceedingly well. In the evening, a grand ball, given by the company, came off at Otten's Hall—the surplus proceeds of which are to be presented to the Brass Band belonging to the company, to aid them in procuring instruments, music, &c.—*Sheboygan Journal.*

Particulars of the Loss of the Garden City.

The steamer *Queen City* arrived at this port on Sunday last, having on board the passengers and crew of the *Garden City*. From F. Holbrook Esq., of this city, who was on the latter steamer at the time of the disaster, we learn some facts respecting it and the subsequent hardships to which the passengers and crew were exposed, that will be of interest to the public.

The *Garden City* was on her first return trip from the "Soo" to this port, and was making fine headway when she struck a sunken reef about twenty-five miles beyond Mackinaw. The concussion was extremely violent, and the boat bounded over the ledge with one or two revolutions of her engine, and was again in deep water. Captain Squires had just gone below when she struck. From the violence of the shock he felt assured that she had sustained great injury, and going above he had her headed about and placed a second time upon the reef. In less than five minutes thereafter she had settled as far as she could, the water being up to the main deck. The reef on which she struck was from eight to ten miles from shore, and had she been headed for the nearest point, it is hardly probable she would have made a fourth of the distance before going down.

The accident occurred about 5 o'clock in the afternoon. As soon as she had settled upon the reef the passengers and crew—in all 37 persons—took to the boats and safely made an island the nearest land. Afterwards, one of the boats was manned, in which Captain Squires proceeded to Mackinaw for assistance. The island was uninhabited, and the rain commenced falling shortly after passengers landed upon it. A dilapidated, roofless hut was discovered, and by a judicious of a few blankets that were brought off from the steamer, the lady passengers were partially protected from the weather, though the clothes of the gentlemen were completely saturated. All that night and next day and night they remained upon this desolate island, with but a short allowance of provisions. On Thursday morning they were taken off by the Queen City, and arrived as above stated.

When the Queen City left the wrecked steamer she was broken in two amidships where she rests on the reef. Her most valuable furniture and plate were taken off. It is barely possible that her machinery may be gotten out, though that will depend upon the state of the weather.—As for the beautiful steamer herself, her fate is sealed. She must go to pieces the first storm.—Mr. Holbrook speaks in high terms of the coolness displayed by Captain Squires in the emergency. The following card, which we are requested to publish, will show that his fellow passengers concur with him in this opinion.

A CARD.

STEAMER "QUEEN CITY."
May 19, 1854.

We, the undersigned, passengers on board the ill-fated steamer "Garden City" at the time of her wreck; desire most cheerfully to express our thanks to the Captain, Officers and crew, for their judicious, prompt and energetic action in rescuing us from danger; providing for our comfort while delayed, and for the timely means furnished for the prosecution of our voyage. We also take pleasure in acknowledging our obligations to Capt. Squires for his kindness and attention to us while on board his vessel, and are happy to bear testimony to his ability as a competent and experienced commander.

Burning of the Propeller Kent.

The Buffalo *Express* has the following account from Capt. HERRICK. The *Kent* was bound for Toledo with goods to come by R. R.:

"The *Kent* left this port on Friday at about 2 P. M., with nearly a full load of merchandize bound for Chicago. She proceeded on her course and was steering for Cleveland, and keeping nearly the middle of the lake; between 5 and 6 o'clock, when nearly abreast of Gravelly Bay, the Captain who was standing near the engine conversing with the Engineer, remarked that he smelt something burning, and asked the engineer if the journals were not getting hot, and at the same time casting his eyes towards the forward part of the boat, he perceived smoke issuing from the hatchways and up through the main deck. He immediately ran forward and called the mates, when almost instantly the flames burst forth, nearly the whole length of the main deck. So sudden was it that the crew rarely had time to lower the small boats before the vessel was enveloped in flames. There was a heavy sea running at the time and the boat was some 15 miles from shore. The crew all got safely into the boats, but in the hurry and excitement only two oars were taken for both boats, but with the use of some boards they tore up from the bottom of the boats which they used for paddles, the crew reached the shore in safety in about 5 hours, pretty well exhausted. The steamer *Northern Indiana* and propeller *Milwaukee*, both bound for Detroit, descried the burning vessel when some thirty miles off, and immediately bore down for her. Capt. PHEATT, on coming up with her, immediately lowered his life-boats and searched around in the lake to see if any persons were there, but discovered nothing. After remaining about two hours he proceeded to this port. Captain MARSDEN, of the *Milwaukee*, remained by the burning vessel until 4 o'clock in the morning, when she broke in two and went down in 12 fathoms water. The vessel was owned by Jas. C. EVANS, C. EVANS & Co., of this city, and HUBBY, HUGHES & Co., of Cleveland, and was insured for $16,000 in the Buffalo and Cleveland Mutual Companies. There is no means of ascertaining the value of the cargo, but it is estimated at between $200,000 and $300,000."

The *Democracy* says:

"The Clerk was unable to save any of his books or papers, but was fortunately able to secure what money was in his safe, before leaving the boat. In the hurry and confusion, but one oar was put into the small boat, with which the captain and crew managed to make the land. The *Kent* is about 5 years old, had recently been thoroughly repaired, and was estimated to be worth $24,000."

FAST TRAVELING.—The splendid steamer Southern Michigan, of the Michigan Southern Railroad Line, a few days since, made the run from Monroe to Buffalo in 13 hours and 20 min, landing her passengers two hours and a half before the departure of the eastern trains. With such running as this, passengers need not fear of missing connections for the east.—*Chicago Journal.*

NEW "THINGS."—Specimens of the new things, issued by authority of the same law that authorized the coining of gold three dollar pieces, have made their appearance. They are of pure silver, and have a palm leaf *over* the "III," and a bundle of arrows *under* it.

The Late River Improvement Contractors.

Gov. W. A. BARSTOW was the Contractor on the Public Works at this point at the time of its transfer to the Improvement Company. Numerous other persons were connected with him either as partners, or agents, or Clerks; the Governor himself was seldom here for any great length of time. Messrs Wm. McNaughton and G. H. Barstow were in charge the most of the time. It was believed that Messrs. A. E. Elmore, S. Park Coon and Andrew Proudfit were also interested in the Contract, but we know nothing about it. The original contract was taken by the late R. P. Talmadge; afterwards the late Albert S. Story became a partner. They sold out to "Barstow and the Balance." So far as we could ascertain, (and we have made diligent enquiry,) the worthless Paper Currency, purporting to emanate from Washington City D. C., was paid out by all the different Contractors, or their agents or Clerks who had control of the work here prior to its transfer to the Improvement Company.

Is the Milwaukee 'News' answered?—*Appleton Crescent.*

STAGE UPSET.—One of the three stages which left this City for Fond du Lac, on Saturday morning last, with an immense load of passengers and baggage, upset somewhere near Greenbush and most of the passengers were more or less injured. No bones were broken, we believe.—*Sheboygan Journal.*

☞ The Lowell *Courier*, being probably the "official paper of the city," states that the Mayor has determined to kill half the dogs in Lowell and tan their hides with the bark of the other half. Is this "by authority?"

In New Holland, before a girl is given to her husband, two of her front teeth are knocked out; the happy lover then throws a kangaroo skin over her shoulders, spits in her face several times, marks her with painted stripes of different colors, ordersher to carry his provision bag to his hut, and if she does not go fast enough to pleas him, gives her a few kicks by the way.

☞ A valuable work has recently been added to the Library of Congress—a complete file of the London *Gazette*, from 1656 to the present time. This is the only complete file in existence. The Library of the British Museum made several ineffectual attempts to obtain this work, but the prize was borne off by Brother Jonathan. The *Gazette* has been for two hundred years the journal of the British government, and in it are published all civil, military, and naval appointments; resignations, deaths, and discolssale—all bankruptcies, proclamations, ordinances and despatches from military and naval officers in command on foreign stations.—*N. Y. Cour. & Enq.*

CHARGE OF STEALING.—A warrant was issued against John Doe, alias, charging him with stealing two pieces of timber of the value of $1,50.—The property was found a short time after the warrant was issued by Constable Fisher who had the warrant.

New Advertisements.

By the return of a portion of our force which went on the great *train* noticed yesterday, we are enabled to bring up a portion of the arrears of advertisements.

J. A. HALL has received new supplies of Wall Paper, Gutta Percha Pens, &c., of which he informs our readers, and we happen to know that his stock of books, of which he says nothing, is excellent.

C. J. GILBERT, on Wisconsin St. where everybody used to go for late supplies of cheap reading of all kinds, keeps up his stock well, and besides has hosts of books not so often called cheap, but none the less so that they cost money. The "Lamplighter," *the* book now-a-days, is on hand again at GILBERT'S.

C. W. NEWTON has removed his stock of Hardware to the old and well known stand of W. H. Byron & Co., where his customers will find full supplies, and ready attendance upon their wants.

The good steamers *Globe* and *Lady Elgin* under Commodore's PRATT and CHAMBERLAIN, have their days of leaving Buffalo and Milwaukee advertised for the season. The trip by Michillimackinack, of which the New York papers spoke in 1819 as "a splendid adventure, similar to the Argonautic Expedition" is not so much of a wonder in these days, but we have often said, and always meant what we said, that a summer trip around the Straits and among the Islands is one of the pleasantest in the world.

BLAIR, on Wisconsin St., has added new supplies to his already overflowing stock of ladies' fancy goods.

BLAIR, East Water St., at his old stand, has been busy for some days stowing away new supplies of Crockery, Glassware &c., all of which he is desirous to take down from the shelves again as soon as possible. See his notices of the same.

A capital opportunity is given for an enterprising and industrious man, by the advertisement of the Lodi Flouring Mills, situated in the midst of a fine country and good market.

GWYNNE'S PATENT REACTION CENTRIFUGAL PUMP and FIRE ENGINES are also advertised. It requires no small effort of memory to keep the name in mind; so we advise every one to read and copy the notice.

The Shoemakers are moving. See their notice of a mass meeting.

CHAPMAN is also in receipt of new styles of Paper Hangings.

FIGHT ON THE PIER.—A fight took place yesterday afternoon on Kellog and Strong's Pier, at the time the steamer Traveller was landing her passengers, to the great annoyance and hindrance of the passengers. It appeared to have grown out of some man not having paid for his breakfast, at one of the hotels. We don't know who was to blame in the matter, but this we know, that such scenes are alike disgraceful to the city, as to those engaged in them. Passengers arriving at our city should be allowed to *land in peace, unmolested*. It is the duty of our city authorities to make regulations, to enforce the preservation of the peace, on the piers. We are sadly behind other cities of less population than ourselves, in this matter. The daily confusion which takes at the landing of passengers from the mail boats and cars should be prevented. The noise is of no benefit to the hotels, or to the runners connected with them. We know one runner in the city who is one of the most quiet men we know, and the most successful in procuring passengers, from his quietness.

An ordinance, passed March 20th, 1852, *and now in force*, subjects these runners to a fine of $2 to $20 for any kind of disturbance, profanity, or boisterous language. It also empowers any officer of the peace to *arrest* and *commit* the offender, and to give directions for preserving the peace, and resistance or disobedience subjects the offender to a fine of $50. Will our Marshal and other officers do their duty?

A LARGE BELL FOR BEAVER DAM.—We noticed yesterday on KELLOGG & STRONG'S pier, landed from Chicago, a massive church bell for the Presbyterian Church at Beaver Dam, Dodge Co, directed to Mr. Lynch at that village. Its weight was 1500 lbs. and it was from the foundry of A. MENEELEY'S Sons, West Troy, N. Y.

☞ The steamer *Traveller*, Captain Cooper, arrived from Chicago yesterday afternoon with 163 passengers and a large amount of freight.

ART UNION CLUB.—Mr. BROOKS requests us to call a meeting of his subscribers at his room in Kirby's Block this evening at 8 o'clock.

The *Union* has an other editorial article rejoicing over the passage of the Nebraska Bill. The Intelligencer in a mild editorial regrets its passage as unfavorable to the South.

Congressional.

SENATE—Mr. Seward submitted a number of petitions in opposition to the Nebraska Bill.—Senator Benjamin of La., introduced the series of resolutions passed by the Louisiana Legislature relative to the annexation of Cuba.

Senator Seward, in a brief speech, ridiculed the present agitation of the Cuba question and hoped it would wait the settlement of the *Black Warrior* case.

The Nebraska Bill was then read a third time, and Senator Douglas rose to make an explanation.

HOUSE—Mr. Phelps asked consent to postpone debate on the Pacific Railroad bill until the deficiency bill was disposed of—objected to.—House took up the bill, but it was afterwards laid over until to-morrow, and the deficiency bill resumed, and the Washington Water Works amendment was debated.

PATENT MEDICINES.

Caution!

To Those Who Use Spirituous Liquors Either as a Beverage or Medicine!

WOLFE'S

Schiedam Aromatic Schnapps.

THE ABOVE NAMED PREPARATION has become extensively known throughout the length and breadth of the United states and is universally admitted to be the most delightful, healthful, invigorating, and pure preparation of the juniper berry, that science and a long practice in the distillation and preparation of pure liquors have ever succeeded in producing.

A long established manufacturer and importer of liquors of every description, the undersigned devoted himself to the production of an article of pure gin, which should prove a valuable agent in the cure of the manifold diseases with which the human race, and for which Holland gin has been prescribed by the medical faculty for years. At length the object was consummated, and we, as the exclusive distillery in Schiedam, Holland, from which place the purest gin has long been imported, and he was enabled to give to the world his Schnapps, which, for purity and entire freedom from the prevalent head ache and all other noxious ingredients, and delightful aromatic flavor, has never been equalled, and cannot be excelled.

In order to protect himself from pecuniary loss at the hands of cheats, impostors and pirates, who would unquestionably attempt to palm off a vile and spurious article in on the unsuspecting community, and, like the wolf in sheep's clothing, prey upon their very vitals, he is compelled to the expedient of importing and selling his Schnapps only in pint and quart bottles.

These bottles are of glass, stamped with the name of the manufacturer; are corked and sealed, and have printed labels bearing the signature or Adolphus Wolfe upon them. They are enclosed in colored wrappers, also bearing his signature, in which form alone they can be obtained in assca, containing one dozen bottles each.

Notwithstanding all these guards, unprincipled parties have been found guilty of the unwarrantable and criminal practice of buying up empty bottles, filling them with vile common gin, which is then sold to unsuspecting persons with which a community was ever cursed, and sends thousands to a wretched drunkard's grave yearly.

It is only necessary, therefore, for those who purchase the article by retail, or drink it at public places, to mark well the appearance of the bottles from which they drink. Caution is necessary.

The Schnapps have been introduced but about two years but in that brief time their virtues have been acknowledged to an almost incredible extent, until it is a matter of some difficulty to keep up a supply adequate to the demand, so far ever and anon there appears in the eastern and Territory in the Union, from Maine to Oregon and California.

Determined that the virtues of the Schnapps should be thoroughly substantiated by the most undeniable and unquestionable testimonials, circulars were dispatched to every regular member of the medical faculty, and professional chemist in the name country, requesting their free acceptance of a bottle of the Schnapps, with a view of enabling them to test its medicinal qualities in their practice, and submit it to the strictest chemical analysis in the laboratories.

The Schnapps have been introduced but about two years but in that brief time their virtues have been acknowledged to an almost incredible extent, until it is a matter of some difficulty to keep up a supply adequate to the demand, so far ever and anon there appears in the eastern and Territory in the Union, from Maine to Oregon and California.

Determined that the virtues of the Schnapps should be thoroughly substantiated by the most undeniable and unquestionable testimonials, circulars were dispatched to every regular member of the medical faculty, and professional chemist in the name country, requesting their free acceptance of a bottle of the Schnapps, with a view of enabling them to test its medicinal qualities in their practice, and submit it to the strictest chemical analysis in the laboratories.

Of the ten thousand physicians and chemists in the United States about four thousand accepted the offer. Upwards of two thousand have promptly furnished their written endorsements, of which the following is a specimen, for it, and in the strongest language recommended its general use, not only as a remedial agent, but a delightful, harmless, and pleasant beverage. These voluntary endorsements are from gentlemen of unquestionable knowledge and the most perfect science.

Not alone have practitioners and chemists furnished their testimonials. The public have also, almost every paper, city and town, has spoken boldly in its favor in its editorial columns.

The New York Medical Gazette and Journal of Health, high authority, has repeatedly proclaimed its excellency. In the July number of that Journal, Dr. Reese, its accomplished editor, has publicly invited a discussion upon the merits of the Schnapps in medicine mixtures, medicinally in its widely circulating columns, and the views of the faculty relative to my Schnapps in particular, giving an assurance that they should be spread before the public. Everywhere, throughout the length and breadth of the land, the Schnapps is already completed with my request to forward me their opinion as to its merits, will oblige me by doing so through the editor of the Medical Gazette.

Were it necessary to do more than simply state this fact which he who runs may read, this advertisement could be increased to an indefinite length by the publication of these testimonials, on file at the war

NOTICE.

On Wednesday, October 24th, I shall have the Pedigree and Terms for the season of the Comet Morgan Horse lately brought from Vermont by my present and bound, early on the ensuing day for the Eastern States, to stand for a season of nine months, two of these my own. It is claimed by many that the Black Hawk stock is the best stock to breed from, and that the *original* Black Hawk was sired by the Old Sherman Morgan, the grand sire of my horse. If any one owns a mare bred can be sailed in this State, and is not for any other purpose than to improve them from that cause can have the season for my bringing Comet Morgan West.
